RE: East Coast Florida Transient (ECFT) Model Peer Review Report

Dear Ms. Radin:

Enclosed is one bound copy and one unbound master of the final version of the East Coast Florida Transient (ECFT) Model Peer Review Report. The report represents a consensus view of the panel members, which has been developed through the weekly teleconferencing, iterative web-postings of the draft versions of the report, and the January 24, 2007 workshop held at the District.

We hope you are pleased with the report and peer review. Please feel free to contact me if you have any questions.

Sincerely,

Peter F. Andersen, P.E.
Vice President
